J. A. MORE, at Wharf street, will sell at 11 o'clock, a m., at auction, Groceries, Provision, Liquors, &c.

Collegiate School - Distribution of Prizes.

The annual distribution of prizes at the Collegiate School, (Rev. C. T. Woods, Principal,) took place yesterday. The examination, which had consumed a week, proved highly successful, and reflected high praise on the Principal and his valued assistants. His Lordship the Bishop of Columbia occupied the Chair, and there were present: The Ven. Archdeacon Gilson; Rev. A. C. Garrett; Rev. Frank Gribbell; Rev. Justice Needham; Dr. Helmecken, (Speaker of the Legislative Assembly); Dr. Tolmie, M. L. A., (President of the Board of Education); Alfred Widdington, Superintendent of Education; J. J. Cochran, M. L. A.; Reg. Gen. Alston; His Worship Mayor Franklin; Capt. Reid; Capt. Raymer; and Messrs Henry Nathan; Henry Wakeford; James Fell; W. B. Smith; Richard Woods, and many others. The attendance was very large. A letter was read from Governor Kennedy, excusing himself from attendance on the score of a prior engagement. In opening the proceedings, the Lord Bishop in substance said: He regretted the fact of the Governor's absence, whose attendance had been unobtainable by a prior engagement for the Coronation Day. His Excellency had however given substantial proof of his interest in the institution by the very handsome prizes which he had presented. His Lordship felt encouraged by the support the school had received. "This support was an evidence that the efforts hitherto made to supply a superior class of education had been appreciated. It afforded him much pleasure to state publicly his conviction that the progress of the school was mainly due to the ability, patient zeal and affectionate interest of the Principal. The great father of modern improved education (Dr. Arnold) had said that when he was unable to run up stairs by three steps at a time, or to yield a seat when a lady left a new pupil, he would consider himself unfit for his position. When either the elasticity of youth or the warmth of kindly feelings had ceased, he would gladly yield to younger and better men. Such he (the Bishop) felt was the case with Mr. Woods. He (Mr. W.) devoted his whole time and the best energies of his mind to the work of this school. He (the Bishop) remembered the disorder which existed in the school on its first formation. The contrast effected by the present discipline, and the evident cheerful interest of the boys, was patent to the observation of all. His Lordship concluded an interesting address amid much applause.

The list of prizes having been read by the Rev. Principal, Archdeacon Gilson made a few remarks, and complimented the pupils for the proficiency they had shown in the examination just closed. Mr. Alston addressed the assemblage, and alluded to the great progress that was being made in education in this colony, and the marked improvement that was visible in the school since the occasion of the last examination. He trusted the time was not far distant when the boys would have as commodious a building erected for their accommodation as the girls now possess. Chief Justice Needham said he had been highly gratified by the remarks of the Lord Bishop, the list of prizes that had been read, and the general appearance and condition of the school. He saw nothing to regret in the management—it was almost perfect. He would rejoice when he saw a noble building rising on the site of this poor edifice; but science and learning were of greater importance than mere piles of brick and mortar. The Chief Justice then gave the boys some advice, and complimented them on the tribute to the Principal, for the energy, ability and self denial he had manifested in educating the youth entrusted to his care. His Worship the Mayor offered a few characteristic and humorous remarks, which were received with laughter and applause. Dr. Tolmie said the successful and unsuccessful boys had been encouraged and admonished; the teachers had been deservedly commended and the addresses had been to the point, and nothing more remained to be said. He hoped the school would continue to grow and prosper, and that a new and more suitable building would be soon provided for its accommodation. The Lord Bishop, in rising to present the prizes, addressed the pupils in a few appropriate remarks, which were received with manifestation of satisfaction. The prizes were distributed in the following order: Harrison—Governor's Prize, form IV. Cohen—Bishop's Prize, form VI. Agassiz—Governor's Prize, form V. Allatt—Governor's Prize, form IV. Fell—Bishop's Prize, form IV. Devereux—Governor's Prize, form III. Devereux—Bishop's Prize, form III. Raymer—First Prize, form V. Nathan—Bishop's Prize, form II. Munro—First Prize, form I. Harrison—First Prize, form I. Fell—Second Prize, form I. Raymer—Third Prize, form I. The Principal, Rev. Mr. Woods, then addressed the assemblage, thanking the gentlemen who had spoken for their kind expressions towards him and their favorable opinion of the school. The work of a teacher was not to supply his boys with empty words, but to give them the discipline of the school's mind as much as his body was the aim—his habits, his manners formed a part of the educational system that had been followed out in the institution. Mr. Woods said he had conducted the school for nearly six years, and during that time he had seen the Principal, Rev. Mr. Woods, the first Vice-Principal Mr. Glover, and Mr. Williams, the present Vice-Principal, to the last named gentleman, and to his remaining assistants, he felt he owed much of the success that had attended his efforts. (Applause.) Mr. Woods then thanked the boys for their attention, and hoped they would always be truthful, straightforward cheerful, and well-behaved and concluded by saying that he looked forward to the time when a more suitable building would be erected for the accommodation of the school. The boys were then dismissed, and the school broke up until the 1st Monday in August.

AN EX-MAYOR ON A "RAMPADE."—Mr. Cornish, ex-Mayor of London, Canada West, is a character who gets drunk, and when drunk he "breaks things." A local paper relates the following scandalous story of his doings: "On Friday last met one Mr. Boniface in a saloon, and accused him of applying certain uncomplimentary epithets to him in connection with the last Municipal election. Mr. Boniface 'headed gaily, whereupon Mr. Cornish promptly blackened both his eyes. Both were soon rolling on the floor, Boniface being uppermost, and is described as a 'heavy man.' The report is that Cornish then tried to get the portly man's head in his mouth, but had not accomplished that pleasant little feat when friends intervened. A warrant, signed by Alderman McBride, was then taken out for Mr. Boniface against Mr. Cornish, whereat the ire of the latter was inflamed in regard to the Alderman, whom he called upon and 'punched.' Finally the belittled ex-Mayor was secured, after a severe struggle, and placed in the lockup. Whilst in the station he smashed everything within his reach, destroying nearly every pane of glass in the building."

FROM NEW WESTMINSTER.—The steamer Alexandria, Capt. Swenson, eight hours from New Westminster, arrived last evening, bringing 25 passengers and a small amount of treasure per Dietz & Nelson's Express.

THE schooner Langley will be sold by auction at noon to-day by J. P. Davies & Co.

WANTED.—Jerry! Heennessy, a drayman, is "wanted" at the Police Barracks to stand an examination on a charge of attempting to shoot and brutally beating one Tim Macdonagh, with a shotgun. The green-eyed monster lies at the bottom of the outrage and a dusky maid of the forest forms the bone of contention. Having snatched the weapon twice at Tim's head, Jerry beat him unmercifully with the stock of the gun, leaving him for dead on the floor and crossed to the "green fields beyond the swelling floods," where it is supposed to be now living in clover within the realm of Uncle Sam.

YALE TREAS.—The Tribune says: The Road Tolls for the week were \$1842 84.... The road to the cemetery has been put in excellent condition, an appropriation being made by the Government for that purpose.... The want of a Court House in Yale is complained of.... A number of Chinamen, mining on the bars below Yale, were taken before the Stipendiary Magistrate at that town and fined for mining without licenses.... The Tribune complains of "sharp practice" in collecting toll at the Alexandra bridge. It appears that the Collector doesn't return change.

DISASTROUS.—The promised thunder and lightning storm of Wednesday night, resolved itself into a dry blow on Thursday and the manner in which the wind whirled the dust around the street corners and applied an extinguisher to anticipated enjoyment on the Coronation holiday, was anything but agreeable. Anywhere within the city limits, life was intolerable, and the only really pleasant place was "up the arm" where the force of the wind was broken and the water was scarcely ruffled by the blast which roared so fiercely elsewhere.

CRICKET.—At the cricket meeting held yesterday, Messrs Howell and Fowler were deputed to wait on His Excellency the Governor for permission to clear a portion of Beacon Hill for a playing ground; also, to collect subscriptions towards the expenses of the Club. Messrs Bacon, Clarke and J. Wilson were appointed the managing Committee for the present year, and Mr. O. Clarke was unanimously re-elected Captain of the Victoria Eleven.

CORONATION DAY was very generally observed. The stores and public offices were closed and bunting waved from every flag-staff in honor of the anniversary of the Coronation of Her Majesty. Buses filled with pleasure-seekers on their way to the picnic grounds of the Turn-Verein, rolled through the streets, and all the world, save the poor omnibus horse and the printer, enjoyed a holiday.

TURN-VEREIN PICNIC.—This picnic was attended yesterday by about 100 ladies and gentlemen, and proved a very pleasant affair, notwithstanding the unfavorable state of the weather. A collision band was in attendance, and dancing was continued until a late hour on a platform erected for the purpose. Gymnastic exercises were gone through with by the Verein during the afternoon. In the evening, a "hop" took place at Sing-Verein Hall.

PHOTOGRAPHS.—Mr. Dally's photographic gallery, Fort Street, is now open to the public. He has received by latest steamer, everything necessary to the successful carrying on of the art, and will guarantee to those who may patronize him pictures giving the utmost satisfaction.

CUSTOMS RECEIPTS for week ending Saturday, June 23d: Duties, \$4031 85; harbor dues, \$70 72; head money, \$39; tonnage dues, \$657 11. Total, \$4798 68. Number of passengers, 39.—British Columbia.

ELEGANT SUMMER CLOTHING.—The Gabriell Linen Dress and Cosaque. A beautiful assortment of these graceful garments, just opened at London House.

Dr. Coor, Dentist, will be here in a week for ten days, when parties wishing to secure his services, will have an opportunity of consulting him.

SCHOOL EXAMINATIONS.—The examination of the scholars of the Public Schools will take place at an early day next week.

Salutes were fired at noon yesterday by H. M. ships on this station.

[From the British Columbian.]

Canyon Creek - Official Report.

From W. R. Spalding, Esq., to the Colonial Secretary.

Sir:—* * * * * Mr. Hixon's party returned here on the 14th inst. and on their return were compelled to do so, solely owing to the want of clothing, food, and the necessary mining implements which would have enabled them to protect their return. As soon, however, as these are obtained, in procuring which I am assured there will be no delay, it is the intention of Mr. Hixon to return to the locality, accompanied by a much larger party, hired at the expense of himself and his friends, and he expresses himself entirely satisfied as to the ultimate results. Indeed there is but one opinion on the subject amongst the individuals who composed this party, and that is of the most favorable description. Having conversed with each separately, I have no hesitation in assuring His Honor that implicit confidence may be placed in the statements contained in Mr. Hixon's letter to me. I forward by this mail a sample of the gold brought down by Mr. Hixon, one ounce; it is a fair specimen of the ore in his possession, and also a piece of quartz which appears to me to be of a cut made by Chinese, and is rich, but I leave to be determined at New Westminster. Mr. Hixon informs us that there are only nineteen Chinamen on this creek, that they have not worked elsewhere than in the bed of the creek, and are now waiting, having been well supplied with provisions, until the water subsides sufficiently to enable them to resume operations.

QUEENSLAND, 16th June, 1886.

Mr. J. F. Hixon to W. R. Spalding, Esq., J. P. Sir:—* * * * * On ascending the Fraser river we had to contend against its more than usually strong current. We did not reach the creek we left in search of until the third day after leaving here, though the distance is certainly not more than 50 miles from the Mouth of Queensland.

We proceeded up the creek from the east bank of the Fraser river about six miles, when we found it branched up north-east and nearly parallel with the Fraser about ten miles, when it branched off again nearly due east about ten miles. After some deliberation our small party of five decided on working the bank of the creek, the high state of the water preventing any attempt at testing the bed.

We worked more or less for several days under many disadvantages, being short of the description of tools most required, and experiencing much rain and rough weather. With all these drawbacks we could make from eight to ten dollars per day to the hand. The gold, as per sample herewith handed to you, is certainly of most beautiful quality. The accompanying specimen of quartz was obtained out of a cut made by Chinese, and there is apparently a very large ledge thereof about three miles above where this was obtained.

Our party having only gone up to test the creek, were not prepared to return, and I consider this will turn out very valuable.

I consider this future mining region to be a continuation of the Cariboo Mountains which cross the river about fifteen miles below Fort George.

By Electric Telegraph.

SPECIAL TO THE COLONIST AND CHRONICLE

California

San Francisco, June 27.—Private telegrams report gold on the 18th opening at 165; later in the day, 155; on the 19th, 163, with rumors of peace being more probable. Brokers quote legal tenders 70½, buying 71½, selling with little disposition to operate. It is reported that the Comstock mine has repaired all its quartz mills and is now working the full number of 72 for the first time in 18 months, daily yields of which are reported at 1600 tons. Arrived—British ship Day Dawn, 74 days from Sydney via Tahiti, 17 days with coal. French bark Harriet, 126 days from Bordeaux. Sailed—bark Glimpse, Puget Sound.

Eastern States

Chicago, June 20.—A Washington letter says owing to the representations of J. Ross Brown, agent for California fruit growers, the Senate decided to take off the tax of five per cent per gallon on native wines and impose a tax of 50 cts per gallon on foreign wines of inferior grades. General Ortega, who claims to be the constitutional President of Mexico, has an agent in New York through whom he submitted a proposition to the Banks, and the Chairman of Committee on Federal relations, looking for an alliance with the United States.

Washington, June 19.—The Senate passed the army appropriation Bill, adding thereto the House Bill appropriating seven million dollars for the Freedmen's Bureau as an amendment. A bill creating a department of education, passed without debate; it provides for a Commissioner of Education with four thousand dollars salary and four clerks. The duties of the department are simply to collect educational and other appropriations. The House passed the army bill, the debate being limited to five minute speeches. Schuchman explained that the bill proposes an army of 43,000 men capable of expansion to 700,000. It also states that there would be fifty infantry regiments, ten companies each. The bill provides further, that there shall be one General, one Lieut. General, five Major Generals and ten Brigadiers. The Speaker submitted a letter from the Secretary of the Treasury stating that between February 2nd and 23rd he had sold \$1,490,000 coin at a premium of from 42 to 37 cents. The Secretary had purchased 155,000 ten forities for which he paid \$1,414,262. He sold between January 3rd and May 3rd \$2,769,900 five-thirties, for which he received \$23,435,229 in 730's; Jay, Cook & Co., were employed in the last operation which resulted in a profit to government of about \$100,000, besides bringing up above par 730's, increasing the value of these securities prepares the way for the general funding of the national securities.

Chicago, June 20.—Ward's Rolling Mill was burned last night. Loss \$700,000. Desmons Republican Congressional convention nominated Major General Dodge amid universal excitement.

New York, 20.—Stemmer Arizona arrived with San Francisco dates to 20th May.

Private Letter from French Creek

FRENCH CREEK, Big Bend, June 18th, 1886.

Mr. J. R. Robertson—

Mr. Dyrillius and myself arrived here Saturday 10th, exactly 21 days from San Francisco. We have seen considerable gold, but I would not advise any one to come here, it is so far as known a very limited gold field, a wild mountainous country, and expensive to mine in, the seasons are very short, and many will be disappointed, we brought provisions to do us some time over from the lake on the backs of Indians, and will remain for some time at least. The travel from the Lake to the Columbia is horrible. We slept on the snow one night, but with plenty of blankets, and plenty of fire, were quite comfortable. I find that there is mail communication here, so you will please forward any letters or papers you may have for me, by mail to Francis O. Big Bend, British Columbia, and I will be your debtor for the amount you may expend, as well as for the favor you do me. Mr. Dyrillius sends his respects. I trust you are in good health, and doing well. I remain, ANDREW DOTT.

New Constitution of Sweden.

So busy are we with the restoration of our Union to its former strength and equipoise, and so overburdened with governmental theories of our own, that most of us have neglected to notice a very remarkable evidence of progress in constitutional liberty which has lately been consummated in a European kingdom—the adoption of a new constitution in Sweden. This event has resounded already throughout Europe, and has created no little excitement amongst thinking people, especially in the neighboring countries, and most particularly in Germany, Prussia and Austria, and even in some parts of France. What the strangest part of the story, the liberal constitution was pushed through by the energy of the King, who was not to be thwarted. The opposition came principally from a portion of the Chambers, and at one time, it was so great as to create fears of a serious outbreak at Stockholm. Accordingly a considerable body of troops was sent to the capital; and thus it is hardly exaggerating to say that liberal institutions were forced into Sweden by a monarch at the points of his bayonets! In Prussia, which is now one of the most despotic of the European kingdoms, this coup d'etat for liberty has provoked, very naturally, the strongest hostility, and the downfall and destruction of Sweden are there prophesied, as the sure result of the movement in favor of civilization and free institutions. The King of Sweden, however—known chiefly to us, perhaps as a grandson of Bernadotte, is loved by his subjects everywhere, and with an affection equal to that of France for her Henry IV, and no less esteemed and venerated for his admirable qualities as a great ruler.—N. Y. Times.

EUROPEAN ITEMS.

The coinage at the British Mint for this year will cost £49,182, of which £10,000 is for gold, £4,000 for silver, £7,500 for copper. A sum equal to the last will be recovered by the sale of old copper not required for the re-coinage. The seigniorage to be paid into the Exchequer, in respect of the year's coinage of silver, is estimated at £30,000.

The French Acclimatization Society has just received two dogs of the real Spanish bloodhound race, formerly in use in America for hunting the Indians and runaway negroes. These animals are rather slightly formed, the coat tawny, the face black, broad-chested and strong backed. They possess great strength, although their size does not exceed that of a pointer.

It has been decided that the King of Greece shall be married to the Grand Duchess Wera of Russia, but the ceremony will not take place till His Majesty has entered the Greek Church. The Grand Duchess is the daughter of the Grand Duke Constantine. She was born on the 4th of February, 1854, and is consequently in her 13th year. The King is 21 years of age.

**CURES AND COMFORT FOR
THE BED-RIDDEN.**

Holloway's Ointment.

Gout and Rheumatism.
To sufferers from the racking pains of rheumatism or Gout this Ointment will prove invaluable. After lotioning with warm water the soothing action of this Ointment

Diphtheria, Bronchitis, Sore Throats, Coughs and Colds.

The class of diseases may be cured by well rubbing Ointment, three times a day, upon the throat, chest at back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with edification and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurf, Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They can not be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil may be looked for in the liver and stomach, therefore set these organs in the ordinary way.

work earnestly by taking nonnarrow's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach on right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both sexes.

nd mind, false delicacy concealing them from the knowl-
dge of the most intimate friends. Persons suffer for
ears from such and similar complaints when they might
Holloway's Ointment with instant relief, and effect
their own cure without the annoyance of explaining the
ailment to anyone.

Disorders of the Kidneys, Stone and Gravel.
Are immediately relieved and ultimately cured if it

ointment be well rubbed twice a day, into the small back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions,	Ceephantiasis,	Skin Diseases,
Bite of Mosquitoes	Fistulas,	Scurvy,
and Sand Flies,	Gout,	Sore Heads,
Casco-bay,	Glandular	Tumours,
Congo-foot,	Ings,	Ulcers,

Chl'blains,	Lumbago,	Wounds
Chapped Hands,	Piles,	Yaws,
Corns, (Soft)	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY
 214 Strand, (near Temple Bar,) London; and by all
 respectable Druggists and Dealers in Medicines through-
 out the civilized world, at the following prices: 1s 1½
 2s 6d, 4s 6d, 11s, 22s, and 33s each Pot.

* * * The following is a considerable sale, and a batch being the largest
